Good afternoon all,
I received the email below from our MPSD district nurse and I must agree it's worth looking into as I pass this way daily. I have already shared a hard copy with Assistant Chief Freiboth at our Public Safety meeting. Please consider Mrs Hinz request.

Sincerely,

Chad Beeman

Hey Chad

Sorry to reach out to you and disregard if you do not see this as a good suggestion.

I am assigned to LHS this year and have noticed a city safety concern. I am super worried about all the kids who are trying to cross 10th st and simply run out into the street. This has come to my attention because I have a student who is wheelchair bound and has increased difficulty crossing 10th street to get to school. No one stops and she has to have her parents come with her and to try to help stop traffic. Because of this I have paid special attention and have noticed MANY students crossing and getting half way, and then traffic comes from the other direction and has to stop rapidly.

I feel like there should be some consideration to installing a light that would alert traffic to stop. It could be Columbus or Division?

I am astounded by the poor driving skills that I see. Although, they are all inexperienced drivers.

I thought maybe you could bring it to the city as a concern if you think this is worthwhile. I do not live in this section of the city.

Thank you so very much!

Jenny
