

20-0920

Members of the council,

Last year, the residents of 5017, 5018 & 5024 Roneta Lane submitted a written request to have the curb and gutter east of our homes extended to include our properties. At the time, we were informed that we had gone about seeking these improvements properly, and because of this, we stood a better chance of having our project included in a future budget. We were also made aware that since it was already a bit late in the year, (2019) and most of the budget allocations for the following year (2020) had been made, it was more likely to be a project done in 2021. That response was honest and reasonable and we appreciated it.

In the spring of this year, I made inquires as to the disposition of our request, and was very pleased to hear that our petition had been submitted and approved in *this* year's budget. Had the work been done in 2021 I would have been grateful.... We all would have been grateful; but having it done a full year before anticipated brings a special thanks to all of you. Thank you for your time, thank you for your responsiveness, and thank you for your service to our/your community.

Regards,
Dave Paulus

David C. Paulus
