RE: 15-615

Dear Councils,

(15-615)

I received your decision letter dated June 23rd to deny my request to rescind the invoice for the hazmat removal fee. This is a petition for reconsideration of your finding and a request to appear before the Council.

The safety commission and Common Council in effect denied my petition by deciding not to change your procedure. I'm not asking you to change your procedure- I'm asking you to retract the bill that you sent to me because I shouldn't owe you anything. You are attempting to deprive me of personal property (e.g. cash) without **due process of law**. This is not a legitimate bill. There is no factual dispute here. Nobody claims that I am at fault. The other driver is clearly at fault as she rear-ended me. During the hearing one of you guys said that you don't want to be in the middle between parties and insurance companies. You're not in the middle. You are one of the direct parties because you (the City) sent me a bill.

I request a hearing where I can address the Council in person prior to making this a legal issue.

Thank You,

Lori M Koschnick
