AUG 31 2017

- To: Public Infrastructure Committee
From: Ralph & Karen Kriescher - 603 Meadow Ct
- * 2008 - Our street between Meadow Ln. and McArthur Dr., was supposed to be completely replaced or just resurfaced. i.e. blacktop, curbing replaced where necessary? Rejected.
 - * 2013 - Same as 2008, pushed ahead, rejected.
 - * 2017 - Same as 2008, 2013, 2017 rejected - again pushed ahead till 2019?
 - * We put up a new garage 2010! We wanted to replace cement up to the front porch, old garage's new garage, to the street! We were told not to, because the engineers weren't sure what changes would be made in Meadow Ct? What if they had to tear out part of our new driveway too, meet the engineers' specifications? We were told to wait till 2013? Rejected again, no warning, NO letter, NO call?
 - * As a joke in 2013, I said, "if you don't do it in 2013, my husband might be dead, before you do it?"
 - * This year in Oct., he will be 78 yrs. old!! We heard from your dept., our street 2019 to be done, rejected again, for 2017?
 - * We have waited 10 yrs., for our street to be done, we think you should redress the situation in our favor? This has been ridiculous, (absurd), unfair to say the least.

(2)

* 2010-2017 - You totally replaced the alley between Meadow Ln. and McArthur Dr., why not our short little road, as long as equipment was there, man power, etc?

* You also cemented part of McArthur Dr. from 35th, past the bowling alley. You almost destroyed our blacktop road & all that heavy equipment being transported by semi-trucks, other big trucks hauling away debris, like Mirro.

* Now we hear 2017, you're doing work on — Spring Hill Dr, what kind of work?

* (Karen) 2012-2017 - we had 2 operations, going for no. 7 in Oct., this is why we've been quiet about our street, it needed time to recuperate.
I want to see our street done, now!

Sincerely,
Ralph & Karen Kriescher
