

18-1012

Dear Mr. Brey

August 31, 2018

Although you are not the alderman for our district, you seem to be the "go to guy" on the city council and that is the reason I am writing to you. I wonder if the council would re-visit the ordinance dealing with the length of grass and anonymous complaints of people who think the grass is too long. We are not in a unique situation, I am sure other senior citizens are in the same position as we are. We are both in our mid-eighties and therefore we have a lawn care company to cut the lawn and shovel the snow in the winter. Because of the amount of rain we have had lately, the lawn care company could not cut the lawn. So when it was possible for the lawn care company to cut the lawn, they were so busy that they were unable to get to our lawn on the weekly regularly scheduled day. As soon as their schedule permitted it, they were here to cut the lawn.

When we were younger we were able to cut the lawn whenever necessary and the grass was always cut at least every week or whenever it was needed. Now, however we have to have someone else do it and we have to wait until the lawn care company's schedule allows it. For the city to charge \$300.00 in the happenstance that the city would have to cut the lawn is a terrible amount for a citizen to pay. So I'm wondering if some changes could be made, or at least consider the weather and schedules of other people. Being that one party is not the only client that the lawn care company has, and the delay that causes, should be taken into consideration.

Sincerely,

John E. Seidl
Joan Seidl

Dear Sirs,

Although you are not the chairman for our district you seem to be the one who
the city council and that is the reason I am writing to you. I would like to know
would revisit the ordinance of filling with the liquid of gases and ammonia
complaints of people who think the gas is too long. We are not a union of
I am sure other senior citizens in the same position as we are. We are not in
and might be there for a few more years to see the law and allow
the snow in the winter because of the amount of rain we have had lately, the law
and might be there for a few more years to see the law and allow

on the weekly regularly scheduled basis. As soon as their schedule is over they
were here to cut the lawn.

When we were young we were able to cut the lawn whenever necessary and the
grass was always cut at least every week or whenever it was needed. Now
we have to have someone else do it and we have to wait until the lawn is
company's schedule allows it. For the city to charge \$200.00 in the hope that
the city would have to cut the lawn is a pretty serious charge to pay. I
wondering if some changes could be made, or at least a condition of the contract
schedules of other people. I think that one party is not the only one that
are company has, and the duty that comes should be taken into consideration.

Sincerely,

John and Joan
