**Attachments:** kerry-mani\_5-24-17\_A1.pdf

Greetings,

I mentioned to Sonja yesterday that Kerry Group is going to be submitting a site plan for their expansion at the former Foster Needle plant. They have a 190' curb cut for the new truck dock/warehouse area on the west end of the site. Can that be added to the next PI Committee agenda for review of an oversized curb cut? The attached site plan is all I have from them so far unless they have contacted you directly with more information. I'm copying Adam Artz from Pinnacle Engineering on this message, as he is the main contact for the site plan. Thanks,

Nic
