Subject: External: Recovery homes

My name is savanna Spencer and I would just like to share my experience with that I had with lotus I was addicted to methods and heroin for 15 years in 2021 I went to treatment and completed it I was Givin the option to go to sober living or back to my previous boyfriends house I was terrified but I chose lotus because I knew if I would have went back to his house I would most likely have overdosed like I had so many other times and probably would not be here today moving into that house has completely changed my life it gave me family and and stability I had people who genuinely cared about me it gave me a new life I now have 20 months clean and am getting my high-school diploma I have a relationship with my son and mom if I didn't have sober living I don't think I would be alive today
