Silver Lake College of the Holy Family's

STRATEGIC PARTNERSHIPS PROGRAM

Community

As a Franciscan Catholic institution of higher education, the value of community is at our core. Investing in our community and the individuals who call it home is what we strive to do each and every day. Our Strategic Partnerships Program is one way we are able to build that connection. The Strategic Partnerships Program works with businesses and communities near and far to create mutually beneficial connections to the College.

These “win-win” connections include everything from access to our amazing students for internships and employee recruitment, to professional development and continuing education opportunities. Additionally, Strategic Partners receive preferred pricing for their employees in the form of a tuition discount and their first class free! In today’s constantly changing business world, investing in employee development is just good business.

Investing in Our Community
