Dan,

Should we be taking this to the PI Committee or should he be told to write a letter to the Committee to perhaps end this once and for all. He will just keep calling or stopping in our office.

Subject: RE: N 14th st Complaint

Dave Neuser (629-5975) stopped in again today to ask that the NW corner of 14th and Michigan be cemented over because the angle of the turn, people are driving over it and gets all muddy.

Thanks,

Abby Reinke

See the attached e-mail from last July. The same abutting property owner was complaining about this same area last summer.

I know we discussed this at one of our Tuesday Managers meetings and I believe we said that we were not going to concrete the terrace area at this time.

I am not sure if anyone called him back to let him know we were not planning to concrete the area as requested.

Dave Neuser stopped me to complain about the NW corner of N 14th St and Michigan Ave. He said because of the angle of Michigan everyone drives over the curb and it is all mud. He wanted to know if the city would fill it in with concrete when they are in the area. See attached pic. There is a small triangle of grass between the cross walks that I think he would like filled in. I told him I would send out an email but that the shop guys were very busy with everything else. I did not get his phone number.
