

Chad, Luke,

Very sorry for the delay on this, it was a lot more easy than I thought it would have been, FYI what I found out was that HGAC has a very good discount negotiated with John Deere however Source well has a 3% better discount than HGAC (on this specific product, I did not look across entire product line).

Attached is a 310 HL SL quote using the HGAC discount. Please email or call me with any questions, and again sorry for the delay.

Thanks,

Eric
