**Date:** January 14, 2022

**To:** Mayor and City Council

**From:** Adam Tegen, Director

**Re:** River Point Clean Fill Donation

The City has recently been approached by two entities willing to provide material and transportation for clean fill to support the River Point District development. The material would be waste concrete spoils from Wells (Spancrete) that they are willing to provide at no cost. The hauling would be provided from Mammoth Construction on return trips from Wells back to the City. Since both portions are likely valued over \$10,000 we would like to gain the concurrence of the Council before moving forward. This will end up saving the City substantial funds that would have been required for the purchase and transportation of quarried material. We will be working with our consultant and the WDNR to verify that the import of the material is acceptable to them due to the brownfield status of the site.

I am happy to answer any questions you may have. I can be reached at [ategen@manitowoc.org](mailto:ategen@manitowoc.org) or 920-686-6391.
