

Dear Manitowoc Safety Committy,
I think that there should be a stop sign at 9th and waldo because children cross the road morning and after school and if theres no stop sign and/or traffic light the cars/buses are more likley to keep going instead of stopping and waiting for the children to cross. So If there is A Stop sign and/or traffic Light it would be safer for children to cross. So it would be great if you could make the streets a safer place for children, Adults, And many other people who cross the street.
