Subject: External: Lotus Homes

My name is Jordynn Meisner and in the beginning of my recovery journey I lived in two different sober livings. Both sober livings had a different impact on me & how they helped me. Horizons helped with the structure & building my support team but Lotus is what drove me deep into goal setting and accomplishing, changing my mindset, getting deep into my emotions & all together being a better me for my self, my family, and the community . It was the people who lived with me & the people who worked at lotus who held me accountable & supported me unconditionally while the house its self gave me the safe place to do everything . In the time I lived at lotus I became house lead & got to help others in there journey, I got my license, my first car from a dealership, I became a manager at work , I successfully completed 3 phases of drug court, & when I moved into my own place I still had all the support and skills I learned while at sober living. Lotus isn't just a building, it's a place that has helped hundreds of recovering addicts find the tools and skills for their recovery so they can build their life back together.
