**Re: Resolution to Authorize Application of WIDNR Targeted Runoff Management Grant (TRM)**

DPI is requesting approval via resolution to apply for the Wisconsin DNR sponsored Targeted Runoff Management Grant (TRM) for stream restoration work at Silver Creek Park. This grant does require a Governmental Responsibility Resolution to be included in the application submittal.

This grant requires a 30% match. In the event of award, matching funds will be utilized from other grant funds designated for this project.

DPI will work with Legal to finalize the resolution prior to Council approval.
