“ We would never have thought that we could get our stone mantel of our fireplace carved with extremely realistic representations of a Medieval Joust and even Kris herself on her horse!

Also, no matter how intricate and complicated the stone pieces might be, the installation always fit and always was done very first class.

We would highly recommend Carved Stone Creations to anyone who is looking to make their home more distinctive and wants to create a lasting masterpiece.”

- Terry & Kris

## *Genuine Stone*

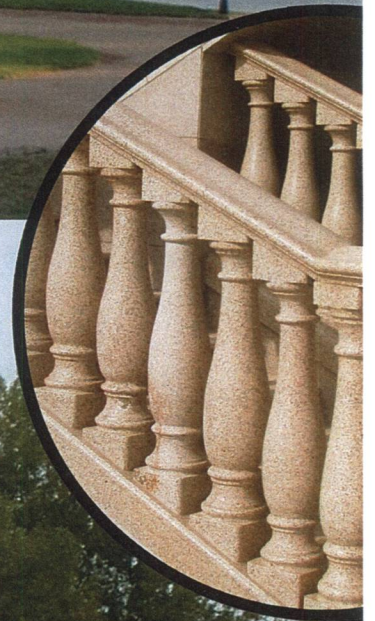

A natural stone exterior presents an authentic image to others and cultivates a deeper form of integrity. Nature makes no excuses, puts on no disguises, hides nothing, and never settles for less. Only natural stone can claim this.

So when you frame your next vision, make sure your creation is as genuine as you.
