Subject: Discussion of speed limit approaching Menasha Ave. southbound on N. 18th St.

Amber,

Another to add for discussion in November, please. This came from a constituent who feels that the current 35 mph limit on N. 18th should be reduced since they claim to have observed motorists exceeding the speed limit and, many times, are "rolling through" the intersection of N. 18th and Menasha Ave. which is a school zone.

Thank you as always.

Bill Schlei
