RE: Ash Tree Timber Sales from Camp Vits

The Forestry Division is requesting the removal of ash trees from the Camp Vits. We are requesting that the trees be removed while the timber still has value. Any funds from the timber sale would be used for improvements to the Camp Vits location. The sole intent is for the removal of the ash trees but we would ask that any tree damaged in this process also be removed to prevent future issues.

The Tree Commission Voted 4 yes, 0 No.
