RE: 19-1095 Requesting up to \$10,000 for Security Cameras at the Senior Center from the Recent Bequest Received

The Senior Center currently has no security cameras. For the safety of seniors and staff I am recommending that security cameras be installed both within the building and outside covering the parking lots. We have worked with the MPD for placement of both interior and exterior cameras. We are requesting funds not to exceed \$10,000 from the recent bequest received by the Senior Center of \$20,829.95.

I recommend the City install the security cameras for the following reasons:

1. Safety and security of Senior Center members, staff and City property.
