Re: Item #19-1062 Broadway and Rapids Rd. Intersection.

Dr. Harold Just who resides at 4704 Broadway Street has requested the City to look at changing signal timing or sequencing at this intersection.

Attached is a copy of the letter from Dr. Harold Just with his request for City assistance.

The City recently (Sept. 13th) repainted the pavement markings on all three legs of the intersection. This will certainly help drivers know that it is a left turn lane only. In addition, we are looking at installing a new LED blinking light (\$1,800) on the Left Turn Only sign that is mounted on the overhead sign structure. We hope that this flashing sign will get the attention of out of area drivers so that they realize it is a turn lane only.

I am recommending the Committee to place this document on file.
