Subject: WF&L Parking Lot Repair - Manitowoc

Dan,

Per our meeting this morning, WPS would like to hire a contractor to repair the parking lot behind the former Wisconsin Fuel & Light building located at 402 N. 10th Street (see attached photo). The property was formerly a manufactured gas plant that was remediated in the mid-1990's following which the parking lot was reconstructed. High level, the scope would involve hiring a contractor to remove the asphalt, section of wooden fence and possibly the concrete walkway in the area of the failure in order to assess the reason for the compromise. Once the cause of the failure is determined, WPS will discuss options for repair with the City prior to moving forward.

Please let me know if you have any questions or would like to discuss further.

Thanks,
Brian
