RE: Ordinance amending 15.370(13) regulating swimming pools

This memo is meant to accompany a proposed ordinance amendment modifying 15.370(13) regulating Swimming Pools. The proposed language change is intended to ensure that safety and placement regulations apply equally to hot tubs and spas rather than solely swimming pools. Hot tubs and spas with an American Society of Testing and Materials (ASTM F1346) compliant cover are exempt from fencing requirements because these covers are presumed to adequately safeguard against accidental injury or drowning.

In addition to safety and placement regulations, the proposed ordinance amendment imposes a requirement that pools, spas and hot tubs be maintained in good repair and kept in a clean and sanitary condition.

The language for this ordinance amendment was mirrored on the International Property Maintenance Code, a model code regulation establishing minimum requirements for the maintenance of existing buildings and properties, which has been adopted by many communities in Wisconsin and throughout the nation.
