Denise,

No problem. Thanks for letting me know! Sonja, can I trouble you to add this to the agenda?

Thanks,

The zoo Society is looking to do a major upgrade to the zoo education center and would like to discuss for approval at the Feb meeting so they can move forward and get it done before the spring. This would be a project that we cause the education building to be closed for about 2 weeks. Please add them to the PI agenda in Feb. Thanks
