

Dear Safety Committee,

I am asking to have two signs installed in my neighborhood. One sign is a No Parking from Here to Corner and an End of Street Red Diamond.

The reason for the No Parking from Here to Corner is a Camper School Bus and a car hauling trailer or a large Coach Bus parks with the back end sticking into the intersection. This is a big safety hazard for vehicles and children on bikes. The street is a dead end, so the intersection is used by many to turn around. When the buses are parked there, the vehicles use the neighborhood driveways to do the turnarounds.

The Red Dead End Diamond Sign at the end of Lilac Drive will show that the street ends. This keeps traffic from trying to drive into the field. I cut the grass, personally, on both ends of the intersection, so this would keep tire ruts from this end.

Both of these signs will eliminate all safety hazards at this intersection.

Thanks for your help in this matter.

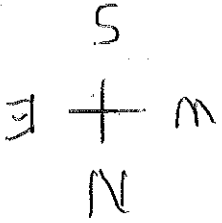

A handwritten signature in cursive script, appearing to read "Tom Burns".
