**Subject:** Lincoln Blvd

Mr. Able,

I live on Lincoln Blvd, and currently my neighbors house is unoccupied (I believe it is claimed as a residence, but no one lives there). They have a tall birch tree that extends over my property line. It isn't an issue at the moment, but soon one of the branches from the tree will be in contact with the roof of my house and I would like that to be taken care of.

I was wondering if the city had any type of protocol for a situation like this?

Thanks,  
Joel Evenson
