Subject: Cost breakdown for Breiss lot and library port a potties.

Hi. Would you please place on the PI agenda a decision on the total costs for the Breiss lot modifications including but not limited to: all staff time, contractor costs, equipment, planters, lights, benches, flowers, sod, concrete at the library per Nick's email, sidewalks and ports a potty expense. I hope we can receive a comprehensive and itemized list of all expenses. We should also discuss under what circumstances tent stakes can be used on the lot and who authorizes the same. The mayor's rationale for removing hard surface and placing grass (turned out to be sod) was to avoid stakes for the skating rink. As we know a large tent with dozens of stakes was put up a couple of weeks ago. Thanks
