Ald. Czekala,

We are planning to send the attached revised State/Municipal Financial Agreement (SMFA) for the SISP Traffic Signal project at the intersection of S. 21st and Washington St. to the Common Council meeting on August 21st.

The DOT's contract with Bodart Electric Service expired at the end of 2022 for the SISP work. The DOT received new prices and Elmstar was the contractor that the DOT has selected to use for the next round of SISP projects.

However, Elmstar's prices were significantly higher than the previous contractor, so the DOT allowed municipalities to submit a revised cost estimate for the work. They have approved the higher costs and have put the higher amounts into the revised SMFA.

I have also attached the original e-mail dated 1/6/2023 from the DOT on this issue.

I have also attached the original SMFA.

The original SMFA had the State Funding Limit for construction at \$251,100 and the new State Funding Limit is at \$295,200, so an increase of \$44,100.

We are requesting that you approve this revised SMA from the DOT at the next Council meeting without going to the PI Committee first. Thanks.

I looked at the previously approved agreement, and I think we should send this new one through Council.

Does someone want to reach out to the PI chair for this to go straight to August Council and the clerks office will make sure it gets on the agenda?

Mark,

I would say yes, let's start ordering the long lead time items now that we have revised SMA.

I am not sure if the Mayor and Clerk are just signing the revised SMA or if they are taking it back to Council on August 21st.

I believe that budget account line/number is 4300-32410-582810.

Greg,

Did you want me to start ordering the equipment for Washington and 21st since the SMA has been completed? If so, is there a funding line for this?

Hi Mark, attached is the cabinet quote you requested. I've used state contract pricing to give you the best deal. Looks like it'll be couple of weeks before I can quote Gridsmart as the legal teams are still working out the agreement. You can either wait or get pricing from Chris in the meantime if time is an issue. Let me know if you want to proceed and order this.

Call me if you have any questions.
