Re: Non-lapsing Snow Fund for Salter Repairs

Five of the salters on current snow plows that were purchased in 2013, have significant wear, and are at their end of life. Mechanic technicians are able to make repairs to this equipment to get through the next couple of years. We are requesting use of up to \$15,000 to repair the salters for this winters snow plowing season. Cost to replace salters would be between \$45,000 and \$60,000.

Photos are attached for your review.

Thank you for considering this request.
