Amber,
It is probably too late for this months meeting. If you ca add it great if not it will have to wait until next month.

Have a great weekend.

Tim

Good morning, Alderperson Boldt,

Please see email below regarding noise on Waldo Blvd. Please place request on your next Public Safety agenda.

Thank you,

Eric J. Sitkiewitz

Eric

Do you know if it is possible to request a noise study for waldo blvd (10)? The federal

noise limit is 85 decibels @50 feet for semis- I called the Wisconsin DOT and they are pointing the finger at the city and law enforcement. Most of the trucks coming through this area have basically no exhaust (open pipes). This being a river valley that noise is just getting ridiculous over here as it bounces around and as more semis come through the area at all hours.

I called and talked to the mayors office this summer about the exhibitionist driving around 'timeout' and the motorcycles - and they have tried to help. They seem to not care about the harleys or semis though. The reason I'm bringing this up is that this is a health issue and all of this is being done willfully. This area is so loud it is incredible. I believe that a noise study will show that Semi and Harley/ sport bike/ modded car noise is far above the 85 decible @50 feet federal statute. My house shakes day and night and I'm not even that close to the road.

Thanks again,
Tony R

Good morning, Tony,

I had held a listening session with the Mayor back on July 25. However, there is one tonight at city hall with District 9 Alderperson Norell. That starts tonight at 6:00pm.

If you need anything, please always feel free to reach out.

Eric

I hope this message finds you well- hopefully you had a great summer

Do you know when the meeting with the mayor is for region 6?

thank you Sir!!

Tony R
