RE: Enterprise Lease Vehicle #5 – 2018 ProMaster 1500

The city has come to the end of the lease period for Vehicle #5. This vehicle has been fitted to meet the needs of the Engineering/Stormwater Division. The buyout for the vehicle is \$5,332.48. Lease payment savings for the balance of the year will cover the buyout making it budget neutral. Due to supply chain shortages, this vehicle would be replaced with a pickup truck and would require significant upfit making lease payments increase. At this time, we feel buyout of the vehicle would be in the best interest of the city. As supply chain eases, and the vehicle ages we can put this back into the Enterprise program.

Respectfully submitted,

Dan Koski
Director of Public Infrastructure
