FROM: Eric G. Nycz, City Attorney  
RE: City Attorney's Office Update – April 2026  
DATE: April 27, 2026

---

In addition to drafting legislation and reviewing contracts as requested by City departments, the City Attorney's Office has worked on the following projects and initiatives since my last update dated March 23, 2026:

## **Environmental Remediation**

- Lemberger Landfill: Work continues as planned. The City incurs quarterly remediation costs that are shared among several parties.
- Gravel Pit: Ned Witte continues as legal counsel. Watermain project continues. Cost recovery for 2024 and 2025 is in progress.
- Mirro Plant No. 9: Godfrey Kahn and Ned Witte are legal counsel for cost recovery efforts pursuant to Wis. Stat. 292.33. A lawsuit seeking damages approaching \$6,000,000 has been filed by the City.
- WPS Superfund Site: No update.

## **Open Records Requests**

- Open Record Requests specific to Building Inspection, PD and Fire Rescue.

## **Litigation, Prosecution, and Neighborhood Improvement**

- 88 Albert Drive – This mobile home park is amenable to working with the City to bring the park up to code. Significant work has been accomplished. We are working with the City's new Inspector Supervisor to determine what, if anything, still needs to be accomplished.
- Multiple raze order requests are moving forward.
- A bicycle accident lawsuit against the City is still in the pleading stage. CVMIC has assigned outside counsel to lead the defense.
- A small claims lawsuit was filed against the City/PD. We prepared an answer and motion to dismiss. Order to Dismiss was signed by the Court on March 27, 2026. This was a successful defense.

## **Economic Development**

- CD Department's upcoming projects
  - Old Heresite property: 8 acres still available, the City has moved debris piles from the Gravel Pit to this site to accommodate the solar farm.
  - Olin/Winchester Option to Purchase: this option expires May 31, 2026, after extending the option last year.
  - Lakeshore Mall site: progress has been swift. All buildings are down, and infrastructure for the northern-most area has begun. The regional stormwater pond is constructed but there has been a slight hiccup with the discovery of a new small environmental issue.
