Hi Greg –

Attached is an updated version of the TPP Amendment. WisDOT has reviewed and we have made their changes. Soon they will be sending it through to you for the DocuSign process (so you do not need to sign this version; just wanted you to have the most recent one for reference/any discussions). We understand that it will need to go through the city's committee and council in August.

The changes from the version we sent a few weeks ago are minor. The overall cost changed slightly, and there was verbiage added to the Special Provisions for Prosecution and Progress.

I believe that this will need to go to committee and council in August. I do not believe that Dan or I can just sign it since it is a contract amendment. August 19th is the Council Meeting for final approval.

Hope that is not a big deal.

Hi Greg –

As mentioned in my voicemail earlier today, attached is the amendment for the Transportation Project Plat (TPP) for S. 30th. The first file is the signature page and special provisions. The second file is the cost spreadsheet and proposal from subconsultant for title searches.

Feel free to call myself or Troy with any questions. Otherwise, if it looks OK to you, please sign on p. 2 of the first file/signature page and email back to us. We will then forward to WisDOT for signature.

Thanks –
Mindy
