Good Afternoon Sonja,

Can you please place Mr. Janda's request on the December agenda.

Thanks,
 Steve

You don't often get email from prolaborpower@yahoo.com. [Learn why this is important](#)

Good Evening,

I am doing some volunteer work for the City, specifically trying to identify grant sources for enhancing the condition of the Little Manitowoc Prairie on Maritime Drive.

In addition to this I am recommending that the Public Works pump station, adjacent to the Prairie, be wrapped with a mural that carries a prairie theme. This would enhance the northern corridor into the City and blend well with a project that is in motion to rehabilitate the western side of Maritime Drive called the bluff between Huron Street and the YMCA that will ultimately reflect a growth of prairie grasses and flowers coordinated by Stantec Inc.

Two years back a similar mural project was produced on the concession stand/bathroom facility next to the baseball field at Lincoln Park which was wrapped with an animal theme to coincide with the Zoo and financed by the Lincoln Park Zoological Society.

I have spoken with numerous individuals regarding my idea such as Brock Wetencamp and local birder/environmentalist Chuck Sontag, who was an original member of the group that put together the Little Manitowoc Prairie project, and they are all in.

Dan Koski wrote me suggesting that I should get permission from the Public Infrastructure Committee for this and that you are the Committee Chair.

So this is a request for permission; I would be happy to appear before the committee however we are seasonal residents only during the summer. Zoom may be an alternative.

What would you suggest be the next move from my end?

Regards,

Bob Janda
2 Cleveland Avenue
