Re: Resolution to Authorize Application of Inflation Reduction Act Urban Forestry Grant

DPI is requesting approval via resolution to apply for the Wisconsin DNR sponsored Inflation Reduction Act (IRA) Urban Forestry Grant for tree planting throughout the City of Manitowoc. This grant does require a Governmental Responsibility Resolution to be included in the application submittal.

Grant funds will be distributed between DPI, Parks and Streets/Forestry, and Community Development to help support tree planting throughout the City. Grant funding request will be \$300,000.

This grant does not require a match.

DPI will work with Legal to finalize the resolution prior to Council approval.
